Dr. Iva Ridjan Skov

Dr. Giorgio Vilardi

Prof. Dr. Antonio Zuorro

Message from the Collection Editors

Dear Colleagues,

Energy and environmental applications are acquiring an increasing importance. Energy and the environment are indispensable for sustainable development. The demand for environmental resources, especially water, food, and fuels, has grown enormously as population growth and consumption rates have increased dramatically.

The attention of the scientific community is already focused on these topics, and the increasing number of research papers present in the literature indicates their importance.

This Special Issue is focused on “Review papers in Energy and Environment”, featuring the state-of-the-art in this field. Reviews related to all aspects of green energy and the environment, such as biofuel and bioenergy, energy storage and networks, catalysis for sustainable processes, and materials for energy and the environment are welcome to this Special Issue.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
