Thermochemical Conversion of Biomass and Waste

Guest Editors:

Prof. Kentaro Umeki

Division of Energy Science, Luleå
University of Technology, Luleå,
Sweden

Dr. Matthias Kuba

BEST Bioenergy and Sustainable
Technology, Unit Fluidized Bed
Technology, Wiener Strasse 49,
Güssing A-7540, Austria

Deadline for manuscript
submissions:

closed (31 August 2020)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we seek your contributions on original papers and reviews about the latest research and technical development in thermochemical conversion processes. Original work on experimental investigations into detailed aspects of the processes as well as modeling and simulations is encouraged. We also encourage the technoeconomic assessment of both retrofit and innovative energy systems using thermochemical conversion technologies as it is essential to bring R&D activities into commercialization.

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
