Engineering, Energy Systems and
Sustainability Science, University
of Gävle, 801 76 Gävle, Sweden

Deadline for manuscript
submissions:

closed (20 July 2021)

Message from the Guest Editor

Dear colleagues,

We kindly invite you to join the Special Issue of the MDPI journal *Energies* on the topic “Ventilation and Building Energy Systems.” This issue may cover a wide range of knowledge about building energy systems which focus on ventilation and its rule in energy use and proper design to ensure energy saving. The following items will be handled here:

- air distribution methods and their impact on energy usage
- the maintenance of an acceptable indoor air quality when saving energy

It is worth mentioning that both experimental and numerical methods are suitable for this issue.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
