entropy

Dear Colleagues,

We are pleased to announce the winners of the *Entropy* 2022 Outstanding Reviewer Award. The *Entropy* Editorial Board and Editorial Team would like to gratefully acknowledge the time and energy dedicated by reviewers in checking the manuscripts submitted to *Entropy*. It is due to their efforts that the high quality of the journal and quick turnaround are maintained.

Prof. Dr. Alexander Zlotnik
Department of Mathematics, Higher School of Economics University, Moscow, Russia
Research Interests: numerical methods for PDEs; mathematical gas dynamics and hydrodynamics

Dr. Jim W. Kay
School of Mathematics and Statistics, University of Glasgow, Glasgow, UK
Research Interests: probability; mathematical statistics; statistical inference and modeling; computational statistical inference; Bayesian modeling; discrete information theory; partial information decomposition; machine learning

Dr. Irina Basieva
International Center for Mathematical Modeling in Physics and Cognitive Science, Linnaeus University, Växjö, Sweden
Research Interests: quantum mechanics; probability; laser physics; telecommunications; artificial intelligence; cognitive psychology; decision making; rationality

Dr. Sergio Luiz E. F. da Silva
1. DISAT, Politecnico di Torino, Turin, Italy
2. GISIS, Universidade Federal Fluminense, Niterói, Brazil
Research Interests: geophysics; statistical physics; image processing; inverse problems; data analysis

Prof. Dr. Michael Evans
Department of Statistical Sciences, University of Toronto, Toronto, Canada
Research Interests: foundations of statistical inference; measuring statistical evidence; eliciting and checking priors; measuring and controlling bias

The Prize for Each Winner:
– CHF 500;
– A 50% discount on the APC for one paper to be published in *Entropy* in 2023;
– A certificate.
