Porto Alegre 90610-000, RS, Brazil

Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editors

This Special Issue seeks original contributions in the realm of random matrices, encouraging theoretical explorations and practical applications in physics, econophysics, and other complex systems. Authors are invited to delve into the nuanced interplay of universal laws and deviations, shedding light on the broader implications of understanding intricate physical and economic phenomena. The topics are but not limited to:

- random matrices
- deviations from universal laws
- phase transitions and critical phenomena

Department of Physics, University
at Albany, 1400 Washington
Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (*Mathematical Physics*)
