Deadline for manuscript submissions:
closed (15 September 2016)

Message from the Guest Editors

Dear Colleagues,

This Special Issue will collect a limited number of selected invited and contributed talks presented during the conference GSI'15 on "Geometric Science of Information" which will be held at Ecole Polytechnique, Paris-Saclay Campus, France, in October 2015. Conference web site: http://www.see.asso.fr/gsi2015 .

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (*Mathematical Physics*)
