

entropy

an Open Access Journal by MDPI

Statistical Physics for the Digital Economy

Guest Editors:

Prof. Dr. Tiziana Di Matteo

Dr. Pierpaolo Vivo

Dr. Giacomo Livan

Dr. Silvia Bartolucci

Deadline for manuscript
submissions:

closed (31 August 2020)

Message from the Guest Editors

This Special Issue welcomes contributions primarily in the following research areas, using standard statistical physics tools (network theory, stochastic processes, phase transitions, information theory and inference, etc.):

- Stability, functioning and vulnerability of peer-to-peer systems, including DLT, blockchains and decentralised marketplaces.
- Impact on the standard banking system of new players (BigTech firms, challenger banks).
- Unintended consequences of algorithmic interaction (e.g., flash crashes caused by automated high-frequency trading algorithms, spread of misinformation fuelled by bot ecosystems).
- Algorithmic bias and its implications (e.g., in online lending platforms)
- Trust and reputation on decentralised platforms.
- Pricing and valuation of nonstandard financial assets and digital tokens.
- Evolution and competition of new technologies and innovations.
- Collective phenomena and dynamics on crowdfunding and peer-to-peer lending platforms.

entropy

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University
at Albany, 1400 Washington
Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (*Mathematical Physics*)
