

fermentation

Dear Colleagues,

The editorial team congratulates the winners of the *Fermentation* 2021 Best Paper Award selected by the journal award committee, which is led by the EiC Dr. Badal C. Saha. All papers published in 2021 in *Fermentation* (ISSN: 2311-5637) were considered for the award. After a thorough evaluation of the originality and significance of the papers, citations and downloads, two winners were selected.

2021 BEST PAPER AWARD WINNERS

Review:

Oleaginous Yeasts as Cell Factories for the Sustainable Production of Microbial Lipids by the Valorization of Agri-Food Wastes

by Antonio Caporusso, Angela Capece and Isabella De Bari

Fermentation **2021**, 7(2), 50; doi: 10.3390/fermentation7020050

Article:

Optimization of Yeast, Sugar and Nutrient Concentrations for High Ethanol Production Rate Using Industrial Sugar Beet Molasses and Response Surface Methodology

by Jean-Baptiste Beigbeder, Julia Maria de Medeiros Dantas and Jean-Michel Lavoie

Fermentation **2021**, 7(2), 86; doi: 10.3390/fermentation7020086

Each winner will receive CHF 500 and a chance to publish a paper free of charge in *Fermentation* in 2023 after peer review.

Please join us in congratulating the winners of the *Fermentation* 2021 Best Paper Award. We also thank all the authors for their continued support of *Fermentation*.
