Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Editor-in-Chief

Prof. Dr. Martin J. D. Clift

Aims

Fibers (ISSN 2079-6439) is a journal that publishes original articles, critical reviews, research notes and short communications on the materials science and all other empirical and theoretical studies of fibers, providing a forum for integrating fiber research across many disciplines.

Scope

- Polymer fibers;
- Carbon fibers;
- Nanofibers:
- Optical fibers;
- Glass fibers;
- Nanotubes:
- Plant fibers;
- Cellulose;
- Animal fibers:
- Mineral fibers;
- Synthetic fibers;
- Textile fibers;
- Fibers reinforcement:
- Fibers preparation, origins, processing;
- Fibers treatment, modification;
- Fibers structure, properties, toxicology;
- Fibers application;
- Other topics and technologies related to fibers.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Journal Rank

CiteScore - Q1 (Civil and Structural Engineering)

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), PubAg, CAPlus / SciFinder, Inspec, and other databases

Rapid Publication

A first decision is provided to authors approximately 24.1 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2023)
