Deadline for manuscript
submissions:

closed (15 January 2019)

Message from the Guest Editor

Advances in the culture of new species is already available thanks to the research carried out in the last few years. New species such as meagre, amberjack, wreckfish or pikeperch in Europe, stripped trumpeter in Australia, grouper in Asia have been considered. This special issue of *Fishes* will provide important information about the research carried out with these new species.

I am pleased to solicit manuscripts which address any aspect of the above-mentioned species in any of the stages of their life cycles.

Dr. Alicia Estevez

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubAg](#), [FSTA](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Marine & Freshwater Biology*)
