Message from the Guest Editors

Dear Colleagues,

Protein is an essential part of our diet. As the world population increases and pressure on the environment from farming grows, there is a need for more efficient and greener methods of production and processing; there is also a need for growth in the production of alternative proteins that can supplement or partially replace the existing protein supply.

This Special Issue will discuss progress in these areas, and the potential impact of novel processes and proteins on the nutritional and health properties of these proteins.

Dr. Mike Boland

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg,** and **other databases.**

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
