## Honeys and Bee Products: Physicochemical, Biological and Nutritive Properties

Guest Editors:

**Prof. Dr. Wei Cao**

College of Food Science and Technology, Northwest University, 229 Taibai North Road, Xi'an 710069, China

**Dr. Haoan Zhao**

College of Food Science and Technology, Northwest University, 229 Taibai North Road, Xi'an 710069, China

Deadline for manuscript submissions:

**18 March 2024**

### Message from the Guest Editors

Under the background of the Healthy China initiative, research on the exploration of natural food with nutrition and healthy function has become a hotspot in food science. Honey not only is favored by consumers due to its unique flavor but also possesses a wide use of pharmacological activities and biological functions as a natural dietary antioxidant. The key to revealing the honey–human health relationship is defining the physicochemical, biological and nutritional properties of honey and honey products.

In this Special Issue of *Foods*, we would like to invite authors to submit original manuscripts within the scope of the proposed topics. Submissions of original research; reviews of current scientific literature, including systematic reviews and meta-analyses; and short reports are welcomed. We believe that this Special Issue, “Honeys and Bee Products: Physicochemical, Biological and Nutritive Properties”, will highlight the most recent advances in bioactive compounds and related analytical methods, nutritional values and biological functions.

## Editor-in-Chief

### Prof. Dr. Arun K. Bhunia

1. Department of Food Science,  
Purdue University, West  
Lafayette, IN, USA

2. Department of Comparative  
Pathobiology (Courtesy), Purdue  
University, West Lafayette, IN,  
USA

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
