Technology, Tianjin 300457,
China

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editor

At present, food enzymes have been extensively applied in the processing of not only traditional food, such as brewing, dairy, baking, meat, and bean products, but also some novel food products, such as artificial meat, specific structural lipids, rare sugar, and so on; however, not all food enzymes can meet the critical requirements of industrial applications, partly due to their low activity, insufficient stability, low yield, and inadequate use methods, limiting their application in the food industry. Hence, the engineering of food enzymes may address the issues associated with the disadvantages of enzymes in the food industry.

For this Special Issue, unpublished original contributions, critical review articles, and short communications in the related areas of food enzymes are welcome, which may include fundamental science or practical applications. Potential topics include, but are not limited to, the keywords below.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
