Deadline for manuscript submissions:

**closed (28 February 2022)**

### **Message from the Guest Editors**

Unsafe food containing deleterious chemicals and pathogenic microorganisms is responsible for foodborne diseases that affects millions every year. Increased awareness and concerns about food safety has skyrocketed the development of novel and rapid technologies for detecting contamination. *In loco* quality evaluation and assurance of agrifoods for the processing industries and fresh market or even for curious consumers has also driven technological advancements. Conventional methods are apparently less expensive and simple but can be laborious and time consuming. Therefore, rapid methods offering higher sensitivity and specificity, while reducing human errors are necessary to overcome the limitations of conventional approaches.

From single analysis to multi-residue methods, from chemical to microbiological evaluations, this Special Issue entitled “Advance of Rapid Analysis Technology for Detecting Food Contaminants” aims to assemble the most innovative research in the field of food safety.

## Editor-in-Chief

### Prof. Dr. Arun K. Bhunia

1. Department of Food Science,  
Purdue University, West  
Lafayette, IN, USA

2. Department of Comparative  
Pathobiology (Courtesy), Purdue  
University, West Lafayette, IN,  
USA

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.**

**Journal Rank:** JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
