Public Health, School of Public
Health, Rutgers University, New
Brunswick, NJ 08854, USA

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

We are in a time of unique challenges with the global change from climate change to public health crises such as COVID-19 and dietary transitions. These food system vulnerabilities are highlighting the need for food system transformation towards enhanced sustainability and resilience. As the food environment links production and consumption in the food system, efforts are called for to support food environments that promote sustainability. This Special Issue explores food environments and their linkages to sustainable agriculture and sustainable diets in the context of global change. We invite contributions that explore the following questions as well as related themes:

- How are food environments transforming with global change?
- How do food environments impact the sustainability attributes of diets?
- What assessments are most suitable to measure different types of food environments?
- How can food environments be enhanced to support the sustainability of production and consumption?

Contributions may include literature reviews, conceptual advances, methodological advances, community-based case studies, empirical field studies, and big data analyses.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
