Nutritional Engineering, China
Agricultural University, Beijing,
China

Deadline for manuscript
submissions:

closed (31 August 2022)

Message from the Guest Editors

Many types of bioactive factors have been shown to exhibit various health beneficial effects, so food manufacturers often want to incorporate active ingredients with specific functional attributes into their products. Nevertheless, there are several challenges associated with simply incorporating bioactive factors into food systems, which may largely limit the efficacy and bioavailability of bioactive factors.

This Special Issue aims to highlight encapsulation-based delivery systems to enhance the bioaccessibility and bioavailability of bioactive factors, with particular attention to the development of new biopolymer-based encapsulation materials using chemical or enzymatic modification method to fabricate different kinds of delivery systems. In-depth studies on carrier material and structure design, relationship between carrier structure and delivery property of delivery systems, and the comparison of bioaccessibility and bioavailability of bioactive factors before and after encapsulation are welcome and encouraged.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
