Message from the Guest Editor

Dear Colleagues,

The COVID-19 pandemic has dramatically changed our way of life, including the way we interact with food. As we adopt to the new normal of the pandemic, the food industry is also experiencing profound structural transformation. Food security concerns such as food price fluctuation, household and restaurant food waste pattern changes, health risks introduced by take-out orders, etc., also arise. Food security researchers have collected data to investigate issues surrounding food security. As a result, we feel it is the right time to organize a Special Issue on food security and the structural transformation of the food industry. We are looking for papers that investigate food security issues related, but not limited to, impact from the pandemic, while also offering critical reflection and providing a forward-looking discussion on future expectations in the realm of food security.

Prof. Dr. Linhai Wu

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg,** and **other databases.**

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
