Deadline for manuscript submissions:
closed (30 April 2014)

Message from the Guest Editor

Dear Colleagues,

This special issue of "Biosensors and Food Safety" is dedicated towards publication of research articles that address development and application of biosensors and novel sensors coupled with sample preprocessing, for detection, identification, and high throughput screening of foodborne microbial pathogens or toxins that are relevant to safety of food. Biosensors may include but not limited to optical, electrical, electrochemical and others that utilize both labeling reagents/probes or with label-free interrogation approaches.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.
Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
