Deadline for manuscript
submissions:

closed (22 June 2023)

Message from the Guest Editors

In this Special Issue we call for papers that explore the role and relevance of bioeconomy in adding value to NTFPs, as well as those that explore the benefits of bioeconomy for both industry and forest-dependent communities alike. We call for papers that summarize, interpret and review data that attempt to include a characterization and inventory of NTFPs (rather than only focusing on single NTFPs) used by households across the world that might benefit from the growing bioeconomy agenda. Our questions are as follows:

What is the potential of NTFP-based bioeconomy in livelihood security and income inequality mitigation?

From the diversity of the NTFPs used by forest livelihoods, how many and which potential NTFPs are likely to be successfully included into the bioeconomy of national/regional agendas?

How can markets for NTFPs be beneficial to biodiversity and communities where biodiversity knowledge originates, in addition to being beneficial to industry?

What are the policy and governance implications for transition to NTFP-based bioeconomy?

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
