Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editor

Over the last five decades, a growing literature has recognized the importance of animal seed dispersers to the integrity of forest ecosystems. These dispersers are not only essential to the regeneration of many forest tree species but also to the regeneration of many understory woody and herbaceous plants.

The objectives for this Special Issue of *Forests* are to provide new information on the importance of seed dispersers to forest ecosystems, conceptual perspectives on seed dispersal interactions, additional information on known interactions, and information on the role of animal seed dispersers in forest restoration projects. The issue will also consider studies of animal dispersal of fungal species, which are important to forest tree health and survival.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
