## Cryosphere Information Engraved in Tree Rings

Guest Editor:

### **Prof. Dr. Haifeng Zhu**

State Key Laboratory of Tibetan Plateau Earth System, Resources and Environment (TPESRE), Institute of Tibetan Plateau Research, Chinese Academy of Sciences, Beijing 100101, China

Deadline for manuscript submissions:

**31 January 2024**

### **Message from the Guest Editor**

The Special Issue will feature diverse and cutting-edge research from various disciplines and regions and show how tree-ring data can be integrated with other sources of information (such as remote sensing and modeling) to provide a holistic picture of the cryospheric system. We invite submissions of original research articles, review articles (including bibliometrics), and perspectives that address any aspect of tree-ring research related to the cryosphere. We especially encourage submissions that explore the interaction of multi-circles, new topics, methods, or perspectives in tree-ring and cryospheric research, or that bridge gaps between different disciplines or regions.
