Message from the Guest Editors

This Special Issue addresses our understanding of the intersection of forests, food, and nutrition. Forest ecosystems represent a biodiverse environment resource of species. Forests and trees play an important role in food production and nutrition. Plants and animals in forests provide nutrient-rich food sources and can make important contributions to dietary diversity, quality, and quantity. Forest foods improve the taste and palatability of staples.

The main topics include, but are not limited to, the following:

- The implementation of sustainable forest management: the optimisation of yields of wild foods and fodder;
- The expansion of agricultural forest landscapes: the new aspect of sustainable agriculture. Reimagining forests as a new set of ecosystems for support sustainable food production;
- Edible and non-edible forest products: an update overview, classification, and cataloguing is welcome;
- Studies on the valorization of foods from forests will be designated. The nutritional value of forest foods. The chemical composition of foods from forests.

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
