Message from the Guest Editors

Dear Colleagues,

Global forests are going through unprecedented deforestation and degradation. The restoration of habitats is increasingly part of the discussion over how to tackle the challenges of climate change and biodiversity loss. The Decade on Ecosystem Restoration 2021–2030 adopted by the United Nations “with the aim of supporting and scaling up efforts to prevent, halt and reverse the degradation of ecosystems worldwide and raise awareness of the importance of successful ecosystem restoration” is an unparalleled opportunity for each of us to conduct ecological restoration studies. How can science contribute to achieving this objective?

We encourage studies from natural forests, plantations and agroforestry, involving field experiments, investigations, monitoring and silviculture practices, to contribute to this Special Issue in order to explore the theoretical and practical knowledge on biodiversity, resilience and stability and provide a scientific basis and management approaches for the protection and restoration of forests around the world.

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
