### Message from the Guest Editors

This Special Issue of Forests aims to collect recent results from field experimental observations and laboratory studies at various sites around the world, as well as related meta-analysis and modeling studies which improve the understanding of diversity, ecology, distribution, and biotic and abiotic associations in undisturbed and disturbed tropical forests.

We invite submissions for a Special Issue of Forests on the subject of “Genetic Diversity and Conservation of Forest Species”. Topics for submissions may include, but are not limited to:

Species diversity and conservation;  
Genetic diversity and conservation;  
Forest ecology and species adaptation;  
Pollination ecology and strategy;  
Endangered species conservation case study.

## Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
