Message from the Guest Editors

This Special Issue of *Forests* aims to collect recent results from field experimental observations and laboratory studies at various sites around the world, as well as related meta-analysis and modeling studies which improve the understanding of diversity, ecology, distribution, and biotic and abiotic associations in undisturbed and disturbed tropical forests.

We invite submissions for a Special Issue of *Forests* on the subject of “Genetic Diversity and Conservation of Forest Species”. Topics for submissions may include, but are not limited to:

- Species diversity and conservation;
- Genetic diversity and conservation;
- Forest ecology and species adaptation;
- Pollination ecology and strategy;
- Endangered species conservation case study.
