Genetics and Genomics of Reproductive Medicine

Guest Editor:

Prof. Dr. Rossella Tomaiuolo

Dipartimento di Medicina
Molecolare e Biotecnologie
Mediche, Università di Napoli
Federico II, Via Sergio Pansini 5,
80131 Naples, Italy

Deadline for manuscript
submissions:

closed (20 March 2021)

Message from the Guest Editor

Numerous research advances in the field of genetics have increased the success of reproductive medicine. Genetics now play an essential role in all stages of the reproductive path, from the diagnostic approach to the choice of more complex therapies.

The intent of the Special Issue is to encourage the standardization of the diagnostic and operational processes of genetic laboratories and to characterize and discuss the use and impact of new discoveries in the field of reproductive medicine. We invite you to take part in this Special Issue with a scientific contribution. The manuscripts will, as always, be subjected to examination by specialized reviewers to guarantee their scientific acceptability.

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics & Heredity*) / CiteScore - Q2 (*Genetics*)
