### Message from the Guest Editor

Dear Colleagues,

This Special Issue, “Feature Papers in Microbial Genetics”, aims to collect high-quality research articles, review articles, and communications on all aspects of microbial genetics, at the level of individual microorganisms and microbial communities, from different environments/hosts, including ancient ones. We welcome the submission of manuscripts from editorial board members and outstanding scholars invited by the editorial board and editorial office. We aim to represent our Section as an attractive open-access publishing platform for microbial genetics research.

Prof. Dr. Silvia Turrone

## Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?
