

*geosciences*

We are pleased to announce the “Geosciences Best Paper Awards” for 2021. Nominations were made by the Evaluation Committee from all the papers published in 2020 and approved by the Editor-in-Chief, Prof. Dr. Jesus Martinez-Frias. We are now proud to announce that the two final winners have been selected, and they are as follows:

Article (500 CHF):

Distinguishing between Deep-Water Sediment Facies: Turbidites, Contourites and Hemipelagites

Dorrik Stow, Zeinab Smillie

[doi.org/10.3390/geosciences10020068](https://doi.org/10.3390/geosciences10020068)

Review (500 CHF):

Review of Explosive Hydrovolcanism

Károly Németh, Szabolcs Kósiks

[doi.org/10.3390/geosciences10020044](https://doi.org/10.3390/geosciences10020044)

# 2021 BEST PAPER AWARDS WINNERS

These papers perfectly represent the broad array of excellent-quality research published in *Geosciences* and are well-deserving of this award. We warmly congratulate Dorrik Stow, Károly Németh, and their respective colleagues.
