

geosciences

Dear Colleagues,

As Editor-in-Chief of *Geosciences*, I am pleased to announce the winner of the *Geosciences* 2024 Travel Award. The award has been granted to Dr. Andrea Maffei, who is a postdoctoral researcher in the Università di Torino, Dipartimento di Scienze della Terra, Italy. His research interest combines fluid inclusion petrology in natural samples with computational thermodynamics to investigate fluids and mass transfer within Earth. He is deeply fascinated with fluid-related processes connecting the deep lithosphere with superficial hydro-atmo-biospheres and how some very small extremely mobile molecules could influence Earth's geodynamics and life, and viceversa. He will attend the EGU 2024 (Vienna, Austria, 14–19 April 2024).

2024 TRAVEL AWARD WINNER

As the awardee, Dr. Andrea Maffei will receive an honorarium of 500 Swiss Francs towards the cost of participation at his chosen conference.

With so many high-quality applicants, the evaluation process and final decision were challenging. We would like to thank all the applicants for submitting their diverse and fascinating range of research topics. On behalf of the assessment committee, I congratulate the winner on his accomplishments.

Editor-in-Chief, Jesús Martínez-Frías

On behalf of the *Geosciences* 2024 Travel Award Evaluation Committee
