Message from the Guest Editors

Rehabilitation is a multidisciplinary concept that is constantly advancing and, in recent years, a multitude of new techniques, treatments and evaluations have been implemented. This Special Issue aims to bring together high-quality articles focused on the subject of rehabilitation.

Both evaluation and treatment technique articles conducted in a clinical or laboratory setting will be evaluated.

- Ultrasound
- Invasive techniques
- Manual Therapy
- Exercise
- Minimally invasive surgery

Deadline for manuscript
submissions:

31 August 2024
