Message from the Collection Editor

Dear Colleagues,

This topic collection is a curated selection of articles that provide a comprehensive overview of the current developments, trends, and challenges in nursing practice and education.

It covers a range of topics, such as evidence-based practice, patient safety and quality, health promotion and prevention, chronic disease management, palliative and end-of-life care, cultural competence and diversity, interprofessional collaboration, professional development and life-long learning, innovation and technology, leadership, ethics, and more.

This topic collection is intended for researchers, educators, practitioners, students, and policy makers who are interested in advancing nursing practice and education. We aim to foster collaboration and the exchange of ideas among the practice, education, and scholarly communities across different settings, levels, and specialties.

This topic collection is free to access and use by all.
