Deadline for manuscript submissions:
30 June 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue is focused on the role of advanced real-time field research in the definition of human adaptation to the underwater environment and to extreme environments in general, through the use of advanced, virtual augmented reality, AI and machine-learning-assisted, real-time physiological monitoring techniques, the definition of physio-pathological patterns and best safety standards for decompression after underwater immersion, and mechanisms of human adaptation to underwater immersion.
