Message from the Guest Editor

This Special Issue seeks manuscripts that address different aspects of neurodegenerative diseases, namely prevention, diagnosis, symptomatic and/or disease modifying treatments, as well as multidisciplinary management and care plans. Original articles and reviews will be considered. Papers tackling the themes of prevention, novel diagnostic biomarkers, treatments and the latest advances in the management of neurodegenerative diseases using a multidisciplinary approach are of particular interest. This Special Issue aims to provide an updated panorama of the current state of the art and future healthcare trends to reduce the global burden of neurodegenerative diseases.
