closed (31 December 2022)

Message from the Guest Editor

This Special Issue will publish a thematic series of high-quality articles on key topics in maternal, fetal and neonatal health. It will emphasize new possibilities for perinatal and neonatal medicine, to translate research into recommendations for best practices in the real world, and to promote discussion in the perinatal and neonatal medicine community.

We kindly encourage all research groups covering relevant areas within the Section's scope to contribute up-to-date, full-length comprehensive manuscripts, highlighting the latest developments in their research field, or to invite relevant experts and colleagues to do so.
