

Recent Scientific Developments in Breeding and Genetics of Ornamental and Beverage Plants

Guest Editors:

Dr. Tangchun Zheng

Prof. Dr. Jiao Jiao

Dr. Penghui Li

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editors

In this Special Issue, we would like to focus on the recent progress in the breeding and genetics of ornamental and beverage plants. We welcome the submission of original research and review articles on, but not limited to, the following subjects:

- The genetic mechanism of specific traits of ornamental and beverage plants.
- The analysis of the important scientific problems related to ornamental and beverage plants using genome, transcriptome and proteome data.
- Evolution mechanism.
- Innovative breeding technology.
- Biological and abiotic stresses.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank: JCR - Q1 (*Horticulture*) / CiteScore - Q2 (*Horticulture*)
