

## Advances in Tea Plant Biology and Tea Quality Regulation, Volume II

Guest Editors:

**Prof. Dr. Jianyun Ruan**

**Prof. Dr. Xinchao Wang**

**Dr. Xinyuan Hao**

**Prof. Dr. Zhaoliang Zhang**

Deadline for manuscript  
submissions:

**closed (25 July 2023)**

### Message from the Guest Editors

Following the tremendous success of the first edition of the Special Issue “Advances in Tea Plant Biology and Tea Quality Regulation”), a second edition is being launched.

As a health drink, tea has a long history and profound cultural accumulation and is loved by consumers all over the world. As one of the most important parts of horticultural research, tea plant biology has experienced a long period of accumulation and ushered in a golden period of rapid development. With the deciphering of the genome and the application of new technologies, remarkable progress has been made in tea plant genetics, breeding, growth and development, regulation of secondary metabolic pathways, stress response, defense mechanisms, etc. Moreover, tea quality analysis and in-depth exploration of health effects provide unprecedented opportunities for the diversified utilization of tea. At this important stage, it is very necessary to summarize the latest achievements in time, so as to provide information support for researchers and industry experts in tea science and related fields. This Special Issue will be set up to show such advances.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Luigi De Bellis

Department of Biological and  
Environmental Sciences and  
Technologies, Università del  
Salento, Centro Ecotekne, Via  
Provinciale Lecce Monteroni,  
73100 Lecce, Italy

## Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

**Journal Rank:** JCR - Q1 (*Horticulture*) / CiteScore - Q2 (*Horticulture*)
