Polytechnic Institute of Viana do Castelo, School of Sport and Leisure, 4960-320 Melgaço, Portugal

Dr. Hugo Sarmiento

Faculty of Sport Sciences and Physical Education, University of Coimbra, Coimbra, 3040-156 Coimbra, Portugal

Deadline for manuscript submissions:

closed (10 October 2022)

Message from the Guest Editors

Following the first following Special Issue “Fitness Assessment, Athlete’s Monitoring Cycle and Training Interventions in Team Sports”, we are launching the second edition that looks for articles covering the topics of fitness assessment, monitoring, and training intervention in team sports. In particular, we are interested in receiving high-quality and novel original articles, systematic reviews, or meta-analyses that may provide important information about (but not exclusively) the following topics:

- (i) adjustment of a training intervention to a fitness assessment and monitoring;
- (ii) individual and group effects of training interventions for sports performance or injury risk reduction;
- (iii) individualized training approaches for sports players in return-to-play;
- (iv) data treatment and workload measures for team sports analysis; and
- (v) integration of covariables that may constrain the sports performance.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
