Deadline for manuscript  
submissions:

**30 November 2024**

### **Message from the Guest Editors**

This Special Issue has the objective of discussing environmental and physiopathological aspects linked to obesity in the life cycle. Thus, considering this thematic Special Issue, “*Nutrition-, Overweight- and Obesity-Related Health Issues*”, we would like to receive articles concerning biological, social, environmental, and behavioral determinants of health, especially those related to obesity and comorbidities in the life cycle. Despite all the efforts of governmental and non-governmental agencies, in addition to the thousands of pieces of research published, the prevalence of overweight, obesity, and correlated comorbidities has been increasing day-by-day. Given this, we think about how people living with obesity can be healthy and live well. Other aspects related to obesity and COVID-19, obesity and mental health, obesity and sedentarism, and obesity and technologies are welcome in this Special Issue. This Special Issue will invite papers addressing these aspects, combining networking and multicenter studies.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
