### **Message from the Guest Editors**

The aim of this Special issue is to present addictive behaviors and the risk factors associated.

Special attention will be paid to original research (including systematic reviews and meta-analysis). Studies do not necessarily have to offer ‘positive results’ (i.e., results confirming previous literature).

Rigorous works where the conclusions offer novelties presenting exceptions to previous studies are also welcome.

We look forward to receiving your contributions.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.
