Universidad de Valladolid, 47011  
Valladolid, Spain

### **Message from the Guest Editors**

This Special Issue is focused on the applied science where measurement procedures, observation analyses, or data management are considered, and it is conceived to reinforce the knowledge of the contribution of meteorological processes on the concentrations measured in order to achieve a better control of air pollution.

Deadline for manuscript  
submissions:

**closed (1 December 2023)**

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
