Message from the Guest Editor

Given the importance of diabetes, the journal *International Journal of Environmental Research and Public Health* is launching a Special Issue entitled “Epidemiology and Prevention of Diabetes” with the aim of gathering together accurate and up-to-date scientific information on all aspects of diabetes. We are pleased to invite you and your co-workers to submit your original research articles reporting on health-related quality of life, mental health, health services utilization, disability, pain, comorbidities, hospitalizations, and pharmacological interventions. We would also like to invite you to submit review articles aimed at providing a comprehensive overview of the epidemiology and prevention of this disease.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
