### Message from the Guest Editor

This Special Issue aims to combine discoveries in nutrition, diet, eating patterns, and the development or treatment of chronic diseases in all life course stages, and based on your expertise in this field, we think you could make an excellent contribution.

Our goal is to bring together bright minds to give scientific data that are idea-focused on nutrition, diet, and chronic diseases, to foster learning, inspiration, and wonder—and provoke conversations that matter.

*IJERPH* is fully open access. Open access (unlimited and free access by readers) increases publicity and promotes more frequent citations, as indicated by several studies. Open access is supported by the authors and their institutes. Please note that a “waived publication charge” will be considered if the manuscript is submitted on or before 31 October 2023.

For any further queries, please do not hesitate to contact us. We will be happy to help, and we look forward to receiving your submission.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
