Message from the Guest Editor

Our Special Issue attempts to highlight the mechanisms upon which the economic crises affect health, health outcomes, and healthcare-seeking behavior. It documents the need for expeditious and efficient interventions. In addition, it presents the empirical experience from policies that have been implemented to counterbalance the effects of a rapidly slowing economy and critically evaluates their results on health and healthcare.

Evidence-based suggestions on the causes, the effects, and the response to the problem are within the scope of this Issue. High-quality scientific and policy papers, both empirical and theoretical, from academicians and researchers are welcomed.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
