Scotland, Paisley PA1 2BE, UK

Deadline for manuscript
submissions:

closed (31 March 2023)

Message from the Guest Editor

Topics covering health protection including the proper management of specific categories such as healthcare waste and electrical waste, the correlation between exposure to toxins and acute and chronic diseases, the role of biomarkers in signaling, environmental pressures, and increased risks of chronic health effects are of interest. These may also be of use in establishing health surveillance programs and supporting environmental risk assessment. Emerging pollutants and strategies for their elimination, informal practices, and the global impacts of regional waste management decisions are also relevant. Please consider contributing up-to-date reviews and your latest research findings on all relevant aspects.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
