Preventive Medicine, Center for  
Public Health, Medical University  
of Vienna, 1090 Vienna, Austria

Deadline for manuscript  
submissions:

**closed (31 October 2019)**

### Message from the Guest Editors

As you are no doubt aware, regular and sustained participation in physical activity is beneficial for almost every facet of human health. However, disparities in the levels of physical activity and health differ within and between countries. Not only does physical activity behaviour and health differ by geographical location, but also by the demographics of those residing in each location (e.g. socio-economic status (SES), ethnicity, age, sex, sexual orientation). This Special Issue of the *International Journal of Environmental Research and Public Health*, “Physical Activity and Health”, offers an opportunity to publish high-quality, multi-disciplinary research relating to physical activity and health (physical and mental) by geographical location and/or across various settings (e.g. occupational settings). We are particularly interested in research that compares physical activity profiles and health profiles between geographical locations.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
