Message from the Guest Editor

Within recent years, a growing body of longitudinal, multi-level and meta-analytic research has highlighted the need for comprehensive and evaluative studies examining the risks to psychosocial health and safety at the organizational and sector levels. This Special Issue of the *IJERPH* invites research papers, reviews, case reports, commentaries and conference papers to help understand the following issues: challenges of globalization and increased competition; impact of Industry 4.0 and technological change; gig economy and temporary online work platforms; increase in workplace digitalization; growth of remote work; role of surveillance; growth of digital communication; intensification of work; increase of service work and associated emotional demands (bullying, violence); intrusion of work into non-work time; conflict between family and work; impact of worker burnout, recovery or engagement; role of organizational culture or cross-cultural impacts; importance of psychosocial safety climate; and the need to design health and well-being promotion policies to address the wide-ranging and diverse occupational changes that are likely to increase in the coming years.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
