

## **Restorative Environments and Safety at Work**

Guest Editors:

**Dr. Margherita Pasini**

**Prof. Dr. Jack Nasar**

**Dr. Margherita Brondino**

**Dr. Matteo Curcuruto**

Deadline for manuscript  
submissions:  
**closed (31 October 2023)**

### **Message from the Guest Editors**

Restorative environments, that is, environments that facilitate the recovery of resources (biological, cognitive, psychological, and social) in individuals, have become an important research field in environmental psychology. An increasing number of studies from different areas indicate that exposure to natural environments can improve people's wellbeing.

This Special Issue focuses on a specific kind of performance, that is, safety performance. From a behavioral perspective, safety performance has been traditionally conceptualized distinguishing between safety compliance (the behavioral adhesion to the formal safety protocols and regulations in the workplace) and safety participation (the active individual contribution in support to the organizational safety programs). We invite safety researchers from many perspectives to share empirical research on the role of nature in affecting safety performance and safety outcomes in general, at work.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
