Kaohsiung City 80708, Taiwan

Dr. Yi-Ju Tsai

Department of Physical Therapy,
National Cheng Kung University,
Tainan City 701, Taiwan

Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editors

The scope of the Special Issue includes (1) health care to prevent sports injuries, (2) regenerative medicine services (e.g., platelet-rich plasma therapy), (3) motion analysis and exercise correction, (4) rehabilitation exercise programs before and after surgery, and (5) the timing and considerations for returning to sports, and (6) the decisive factors influencing sport performance, such as sports nutrition, sports psychology as well as strength and conditioning. This Special Issue of the *International Journal of Environmental Research and Public Health* aims to foster a multidisciplinary discussion on up-to-date scientific data in this area, and therefore, we invite authors to submit original research or specific reviews that can improve the understanding of sports medicine and sports science.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
