

Environmental and Health Effects Associated with Wastewater Pollution, Treatment and Reuse

Guest Editor:

Dr. Alessandra Cincinelli

Department of Chemistry,
Università degli Studi di Firenze,
50121 Florence, Italy

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editor

This Special Issue will include studies on the modernization of traditional technologies and/or the development of new different (bio)-remediation technologies for a more efficient removal of traditional contaminants (i.e., COD, BOD, nitrogen, phosphorous, heavy metals, nutrients, and pathogens) in water and wastewater in order to meet the regulatory requirements for water quality. Manuscripts, position papers, and reviews addressing these topics are all welcome in this Special Issue.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
