submissions:

15 August 2024

Message from the Guest Editor

Dear Colleagues,

Osteosarcoma is a rare tumour but it's a most common non-hematological primary malignant tumour of the bone. The aetiology of osteosarcoma remains poorly understood due to the rarity of this highly aggressive cancer and the difficulty of obtaining an adequate number of samples with high tumour content for further analyses.

The therapeutic protocols include neoadjuvant conventional chemotherapy, surgical resection of the primary tumour and eventually post-operative chemotherapy. The survival rate has improved considerably after the introduction of neoadjuvant chemotherapy and surgery, metastatic or recurrent disease still occurs, and the survival rate of patients is mainly linked to the resistance to therapy.

Metastasis and response to therapy are the main problem of osteosarcoma patients affecting their prognosis and survival and the molecular events underlying this process remain largely unclear; for these reasons it is necessary to identify new targets to develop new therapies that could prevent metastasis development in osteosarcoma.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
